

A 'Tech Club' for people living with dementia: A co-designed initiative

PARTICIPANTS NEEDED FOR RESEARCH

We are looking for volunteer participants for our study: Older adults living with dementia (55+) and their care partners to participate in a Tech Club. Participation includes:

- Completing a 5-minute demographic form
- A 30-minute intake interview (either virtually or in person) to understand your technology experience and needs.
- One three-hour participatory workshop session (April 10th or 24th)
- Eight two-hour tech club sessions (16 hours in total) from [May to June] at a Turner Park Branch (352 Rymal Road East, Hamilton).
- Pre/post-session mood questionnaires taking no longer than 5 and 15 minutes, respectively, for each session.
- One in-person focus group (60 minutes) after the 8 tech club sessions to share your view on becoming a co-facilitator of a tech group for a new cohort of participants.

**Total time commitment: 20 hours and 35 minutes plus commute to location for attending workshops and focus group session*

Participation in this study is completely voluntary, and there are no consequences for not participating or for withdrawing from the study at any point. For more information about this study or to participate in this study, please contact:
